

SCIENCE

Successful completion of a 20 level Science is required for high school graduation

Students planning on completing a Bachelor of Science program are strongly encouraged to complete three 30 level sciences.

* With teacher recommendation.

** After completion of Biology 20 AP or Chemistry 20 Advanced, students may opt to take Biology 30 or Chemistry 30 instead of continuing in the Advanced program.

*** Science 30 can be taken after successful completion of any 20 level science.

**** Students who pass Science 24 after receiving 40-49% in Science 10 can receive 5 retroactive credits for Science 14.
